

Gallant Stand of the Allied Armies in France Effectually Blocks the German Advance

GERMAN FORCES DRIVEN BACK, BRITISH RETAKE TWO TOWNS.

French Soldiers are Heavily Engaged in the Roye Region. Albert is Reported Taken—The Germans are Driven Back Across the Ancre.

LONDON, March 27.—The British delivered a counter-attack today between the angle of the Ancre and the Somme and recaptured Morlaix and Chippilly, the War Office announced this evening.

The French have been heavily engaged west of Roye and were forced to give ground, the announcement states. Reinforcements for them are arriving.

An enemy attack in the neighborhood of Beaucourt has so far made no impression upon the British line. A number of other attacks north and south of the Somme were repulsed.

[BY ATLANTIC CABLE AND A. P.]

The enemy's troops are in Albert. The Germans crossed the Ancre yesterday afternoon, but were counter-attacked and driven back across the river.

The British have again advanced their line south of the Somme to Procy.

ALBERT CAPTURED.

[BY ATLANTIC CABLE AND A. P.]

LONDON, March 27.—The Germans are in possession of the town of Albert, it was announced today by Maj.-Gen. Maurice, chief director of military operations at the War Office. The British are holding the railway embankment on the western outskirts of the place, he stated.

"For the time being the enemy is definitely checked north of the Somme. The fighting in this district has been very severe and the enemy troops are exhausted."

"North of Albert an attack may be expected momentarily as German reserves have been seen massing."

"The enemy is now in Albert. The British line holds the railway embankment on the western outskirts."

"South of the Somme attacks in the Roye and Noyon areas are expected at any moment, but French reserves are approaching."

PRUSSIAN GUARDS SACRIFICED IN PITILESS WASTE OF LIFE.

BRITISH ARMY HEADQUARTERS IN FRANCE, March 27.—Fresh enemy forces were dug into the southern phase of the offensive late yesterday. These reinforcements, including the famous Prussian Guards, were sent forward in a dense wedge against the Allied defenses. The latest reports merely chronicle a most sanguinary struggle without indicating any change in the situation.

At the latest reports the Germans had made no further attack against Roye. North of Albert, however, they attacked in considerable strength toward Aveluy wood. The assault broke against the British line and receded. North of this point the situation is unchanged.

HEAVY FIGHTING.

Heavy fighting occurred late yesterday and today at Aveluy, about Maunula. At the same time the British drove off an attack north of Albert, at Aveluyville. The enemy's gains further north have been large, but the elasticity of the defending

line thus far has defeated the intention of breaking through here and dividing the British line. It is probable this elasticity has resulted in the development of the vicious drive which the enemy is now making to the south.

The resistance which has been offered by the Allied troops to the German advance constitutes one of the fiercest battles in the history of the war. The gallant sacrifices which these hardy warriors made in covering the withdrawal and delaying the German advance forward undoubtedly will have an important effect on the final outcome of this great battle.

The appalling slaughter of the attacking masses has continued since the first day. All the prisoners have been taken in the region of Roye and the great losses suffered. Undoubtedly the Germans expected some such result, and it is probable all their cards have not yet been played.

FURIOUS ONSLAUGHT.

The Germans last night continued their furious onslaught southward from Ham against the Allied line. The enemy's gains further north have been large, but the elasticity of the defending

GERMAN STRENGTH DIMINISHES; FOE'S POWER GREATLY IMPAIRED.

THE strength of the great German offensive in France apparently is fast diminishing. On the seventh day of the titanic battle there were strong indications that the enemy was feeling materially the strain he had undergone and that his power has been greatly impaired through hard usage.

While the town of Albert has been captured from the British, and west of Roye the French have been compelled to give ground in the face of greatly superior numbers, the British have repulsed heavy attacks, both north and south of the Somme, and also driven back across the Ancre River the Germans who forced the stream Wednesday. The fighting still continues of a sanguinary character on all these sectors, but everywhere the British and French are holding the enemy. Especially severe has been the fighting west of Albert, where the Germans, in an endeavor to debauch westward, were repulsed by Field Marshal Haig's men with the heaviest casualties.

The British gains between the Ancre and Roye are reported to be the result of the capture of the towns of Morlaix and Chippilly. South of the Somme they have advanced to Procy, which lies to the south of Roye.

All along the fifty-mile front, from the region of Arras to the south of the Oise near Noyon, the effects of

what was to have been the final stroke to end the war in a victory for the Allies are only too plainly evident in the redevastation of the countryside and the wreck and ruin of the towns, villages and hamlets through which the armies have passed. Westward from where the old battle line reared itself, the German warplanes have pushed forward for material gain, but with few before them who fought with the greatest bravery and stubbornness and ceded no ground unless recompensed at unvarious rates in blood and suffering.

It is estimated that in the great attacks delivered in mass formation more than 400,000 of the nearly 1,000,000 men the Germans threw into the fray are dead, wounded or in the hands of their foes. If successful, might possibly result in a retreat greater than the 1916 retrograde movement of Von Hindenburg and his army, and the drive that has been accomplished. It is not improbable that British and French reserves, and in addition American troops known to be behind the battle front, soon will be thrown against the weakened enemy.

[BY ATLANTIC CABLE AND A. P.]

AMSTERDAM, March 27.—The part reported to have been played by American troops in the attempted relief of the British flank near La Fere is referred to briefly by most of the German war correspondents, but so far no mention has been made of the presence of Americans among the prisoners.

Wilhelm Hoeller, of the Berlin Tageblatt, says the Americans now have an opportunity to find out the consequences of their attack.

"The battle was renewed this morning with great violence south and north of the Somme. Intense fighting has taken place during the day from south of Rosieres to north of Abbeville (Abbeville)."

this afternoon. His entire speech is of political nature.

"This is absolutely incorrect," Senator Williams replied. "I have attempted to avoid partisan politics since the war began. Today I spoke only in defense of the attacks which largely have been induced by partisan moves."

Curtis Republicans followed with a defense of Representative Lusk. He declared that the Bureau of Public Information has circulated the Wisconsin Representative's speeches as documents of patriotism and loyalty and that Congressional records show that war measures have been supported by 75 per cent. of the total Republican membership and that "75 per cent. of the Democrats have voted for them."

Senator Smith declared that the Republicans had supported legislation which he asked for. "I have been revolutionary and socialist and in some cases unjustifiable and unnecessary," he said.

"I have sought to secure partisan advantage by calling attention of the country to admitted blunders of the administration."

"No word of warning of the extravagance and waste of the people's money and the weakening of the administration have been intimated, but some Democrat would immediately rise and claim that it was only the fault of the Kaiser."

MOVEMENT, INDIFFERENT, DECLAIMS INSPECTOR FROM ALIEN ARMY.

[BY A. P. NIGHT WIRE.]

WASHINGTON, March 27.—The "lovely, indifferent salute and lack of uniformity in dress and equipment" are two weaknesses in American soldiers' training, officers of the inspector-general's department and French and British military advisers have informed the War Department. Calling the attention of division commanders to these defects, a department memorandum today says:

"Commanders of all grades are hereby enjoined to make instruction in saluting a fixed part of their drill until every officer, enlisted man and organization can with confidence be pronounced proficient in saluting. This part of the soldier's training must be considered vital in regard to casual."

"All commanders are further enjoined to rigorously suppress all slovenliness of personal dress. Uniformity of dress throughout a command is absolutely essential to discipline and must be kept constantly in mind."

PRACTICALLY all of the fleets of Pierce-Arrow trucks operated by big businesses throughout the country have grown from a single truck or two in use. These initial installations have demonstrated their preeminent ability to do the particular work at hand—generally in competition with other makes of trucks. Then efficient managements have confined their subsequent purchases to Pierce-Arrows—for important economies can be effected by a standardized truck equipment.

SAVE YOUR HAIR! A SMALL BOTTLE STOPS DANDRUFF

Every bit of dandruff disappears and hair stops coming out.

Try this! Your hair appears glossy, abundant, wavy and beautiful.

This, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scourge. There is nothing so destructive to the hair as dandruff. It robs the hair of its luster, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine to night—no—any time—will surely save your hair.

Get a small bottle of Knowlton's Danderine from any drug store or toilet counter for a few cents, and after the first application, your hair will take on that life, luster and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance, an incomparable gloss and softness; but what will please you most will be after just a few weeks' use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them; its exhilarating and life-producing properties cause the hair to grow long, strong and beautiful.

TWO CRITICAL MOMENTS PAST.

Breach in Line Threatened Twice, Says Expert.

Battle Swinging in Allies' Favor, Maurice Asserts.

Work of Airmen Feature of Great Fight.

BY ATLANTIC CABLE AND A. P. LONDON, March 22.—There have been two critical moments thus far in the battle raging in France, Maurice, chief director of military operations at the War Office, said in an interview to the Associated Press.

The first was on Saturday, when the enemy got across the Torille River and nearly reached the line of the Somme, Gen. Maurice declared.

The second was on Monday when the enemy took Courmaitel and a similar danger of a breach was present.

AIRMEN'S PART.

"One remarkable feature of the whole battle has been the work of the Allied airmen," said Gen. Maurice.

"Last night we dropped twenty-two and one-half tons of bombs on enemy positions around Peronne and Bapaume."

"During the day low flying machines operated constantly and almost without interruption on the part of the enemy from the air. With their machine guns they inflicted heavy losses on the enemy and constantly interfered with his preparations."

The opposing forces on the whole front are as nearly equal as possible, the general said.

FORCES EQUAL.

The enemy, being on the offensive, gets his reserves on the scene first. What we require is time to get our forces to the right place.

Every day the enemy is held in a tremendous advance on us.

The battle is far from over and I would not like to say we are not likely to be faced with another crisis at any time in the future.

The situation today is less critical than it has been in the last few days.

Gen. Maurice laid a map of the western front on the table in his quarters while making his customary verbal statement today, a blue line representing the front as it stood last night's communication, while a bright green line showed the line at which the British were pushing forward.

Changes today included slight enemy advances along the Somme, both north and south of the river, and a similar advance further south around Erches and L'Esclapart.

During the night, continued Gen. Maurice, "the enemy attacked just north of the Somme and drove us back to Mericourt and Bailly, but fresh Allied troops arrived on the scene."

War Measures

ENACTED IN TEXAS.

LEGISLATURE ADJOURNS AFTER PASSING PROHIBITION BILL.

AUSTIN (Tex.) March 22.—The fourth-called session of the Texas Legislature adjourned sine die today, after having enacted a number of important "war measures."

Among other important measures enacted are: A woman suffrage bill giving women the right to vote in primaries and nominating conventions; a statutory prohibition bill and a majority primary bill, all becoming laws June 28.

The Legislature also ratified the Federal Constitution prohibition amendment.

BOLSHEVIK LEADER ARRESTED BY GERMANS.

BY ATLANTIC CABLE AND A. P. LONDON, March 22.—M. Kamenoff, the Bolshevik leader, who was vice-president of the working committee of delegates in Petrograd, has been arrested by the Germans on the island of the Baltic.

Kamenoff was one of the Bolshevik leaders in the early Bolshevik negotiations.

BATTLE PERIL OVER, IS LONDON'S BELIEF.

HAIG'S LATEST REPORTS RAISE SPIRITS OF PUBLIC IN ENGLAND.

BY ATLANTIC CABLE AND A. P. LONDON, March 22.—Field Marshal Haig's latest reports have greatly raised the spirits of the public and the newspapers. Although uttering a note of warning that all danger has not passed, the newspapers consider the situation much improved.

"There are signs," says the Evening Star, "that the real danger of a German victory in the west, although it has not been finally averted, is becoming less."

The Globe declares that the German situation is a strategic failure. It took them five days to gain objectives which they had set for the first day.

"In every battle, time is the vital factor," says the Globe, "and time has been gained by the astounding stubbornness of the resistance of our men."

Winston Spencer Churchill, Minister of Munitions, in his appeal to workers, has asked them to consider seeing many munition workers announcing their intention to forego the Easter holidays, and of men who were on strike returning to work.

HAIG URGES HIS MEN TO DO THEIR BEST.

BY ATLANTIC CABLE AND A. P. LONDON, March 22.—Field Marshal Haig has issued the following statement of the day, dated March 22:

"To all ranks of the British army in France and Flanders. We are again in a crisis in the war. The enemy has collected on this front every available division and is aiming at the destruction of the British army. We have already inflicted on the enemy, in the course of the last few days, a very heavy loss."

The French are sending troops as quickly as possible to our support. The British are sending troops as quickly as possible to our support.

HAIG CABLES THANKS FOR CANADA'S PRAISE.

OTTAWA (Ont.) March 22.—The Duke of Devonshire, Governor-General of Canada, has received the following message from Sir Douglas Haig, the British commander, in reply to a message sent on behalf of the Canadian people:

"The inspiring message of comradeship and confidence which you have been good enough to send me on behalf of the Canadian people is encouraging to all ranks of the British army in France."

Changes today included slight enemy advances along the Somme, both north and south of the river, and a similar advance further south around Erches and L'Esclapart.

During the night, continued Gen. Maurice, "the enemy attacked just north of the Somme and drove us back to Mericourt and Bailly, but fresh Allied troops arrived on the scene."

DISORDERS FOLLOW STRIKE; TWO WOUNDED.

FIVE KANSAS CITY LAUNDRY PLANTS DAMAGED BY RIOTERS.

BY A. P. NIGHT WIRE. KANSAS CITY (Mo.) March 22.—Disorders in which at least two persons were shot and seriously wounded and five large laundry plants damaged, marked the first day of the general strike in Kansas City, called in sympathy with the striking laundry workers.

The strikers were shot by guards who fired into a crowd of several hundred that attacked a laundry plant with bricks and sticks. The two men were taken to a hospital.

United men asserted tonight several thousand men and women had obeyed the call, seriously crippling several industries.

Efforts to mediate the differences were resumed, conferences being held tonight.

Fifty-one saloons were closed late today after there had been several clashes between the strikers and company guards in the district where most of the laundry plants are located.

GERMAN ATTACKS BROKEN BY FRENCH RESISTANCE.

Fresh Troops in Superior Numbers Force Retirement at Montdidier.

PARIS, March 22.—The text of the official statement tonight reads:

"The Germans, throwing into the battle fresh new troops, today attacked with redoubled violence our positions east of Montdidier. Our troops with praiseworthy tenacity checked the assaults of the enemy, who succeeded in advancing only a few meters."

"In the regions of Launay and Noyon attacks not less powerful are being made."

BRITISH RETREAT ALONG BOTH SIDES OF SOMME.

Germans Declare Retirement Over a Wide Front Started Early.

BY ATLANTIC CABLE AND A. P. PARIS, March 22.—The British are standing on the heights to the north of Noyon.

"Our dispatch service has taken a prominent share in the work we have achieved. Laboring untiringly, they have rendered possible the operation between units fighting next to one another and gave the leaders assurance of being able to carry the battle into the desired channels. Railway troops which carried out a tremendous advance from the beginning of the fighting without any friction and which are now coping with the traffic behind the front, are working ceaselessly on the reconstruction of destroyed railways."

"Since the beginning of the battle thirty-three enemy airplanes and six captive balloons have been brought down. Cavalry Captain Baron von Richthofen has achieved his sixty-seventh and sixty-eighth aerial victories. Lieut. Bongart, his thirty-second; First Lieutenant Loers, his twenty-fourth; Corp. Reimer, his twenty-third; and Lieut. von der Linde, his twenty-second. They are trying to destroy the British lines."

"The body in guns has increased to 243 and over 100 tanks are lying in the captured positions."

"On the rest of the western front artillery battles continue, increasing on the Lorraine front to great strength."

"From the other theaters there is nothing new."

JAPS WILL TRANSFER SHIPS TO UNITED STATES.

Negotiations Completed for One Hundred and Fifty Thousand Tons.

WASHINGTON, March 22.—Negotiations for transfer of 150,000 tons of Japanese shipping to the United States have been completed on the basis of two tons of steel plates for one ton of deadweight of ship capacity.

This agreement is understood to be in the nature of a preliminary agreement intended to bridge over the period of negotiations now being conducted by American Ambassador Morris at Tokyo for a wider and more permanent understanding.

The United States first asked for 20,000 tons of ships and negotiations proceeded on that basis until the Russian debacle brought up the possibility of Japanese action in the Pacific.

Japan was unwilling to relinquish more than 150,000 tons, asking in return the lifting of the steel export embargo so that the might replace the ships with new ones.

BATTLE FORCING ARMIES TO FIGHT IN OPEN FIELD.

LONDON, March 22.—The zone of open warfare is continuing to enlarge as the Entente forces fall back fighting under the enormous weight of the German numbers, says Reuters's correspondent at British headquarters in this district today.

It is clearly established, he adds, that the present offensive is the great main effort of the Germans and that it has not been as successful as they anticipated, the enemy being a long way behind his time passed."

WOUNDED GERMANS FILL LONG AMBULANCE TRAINS.

AMSTERDAM, March 22.—The front, according to the Telegrams, is passing through the Liège and Namur, Belgium, on their way to Aix-la-Chapelle and other parts of Germany, with wounded men from the French battle.

GERMANS MARCH MEN BY NIGHT TO BATTLE.

AMSTERDAM, March 22.—German troops going forward to the attack on the British front in France detained far behind the lines, even behind the Belgian frontier, according to the correspondent at the front on the Rhine-Westphalia-Zettingen. These forces marched for six consecutive nights, no column showing themselves on the roads in the day time.

NEW RECORD
FOR SHIP HULL.

Steel Steamer for Government

Build in thirty-one days.

(BY A. P. NIGHT WIRE.)

A PACIFIC PORT, March 21.—Marking the completion of a steel hull in what was claimed as the shortest time on record in any American shipyard, the 8400-ton steamer Westgrove was launched here late today. She was built in sixty-one working days, and, in addition, much of her equipment was installed within that period before she took the water.

Simultaneously with the Westgrove's launching, the Point Bonita, also a steel steamer, was put in the water at another yard near by, and the third steamer, a wooden ship, was sent down the ways from still another plant.

Prospects today were that approximately thirty wooden steamers will be launched here within the next thirty days.

Of a scar on his lip he had been forced to grow a mustache. The scar on his face had resulted in a substantial cut in his salary, he stated.

Gov. Stephens will review the soldiers' men of city, March 16, at the Santa Fe station tomorrow evening as they prepare to entrain for Camp Lewis. Proceeded by an escort of twenty police and to the music of the band of the city.

The second and sixth churches of Christ, Scientist, announce free lectures on Christian Science by Dr. Walton Hubbard, C.S.B., of Spokane, member of the board of trustees of the church, at 8 p.m. today, to the station, leaving headquarters at 6:30 p.m. at the station.

SHIPWORKER HELD ON A FRAUD CHARGE.

INSPECTOR SAYS HE WROTE A LETTER TO THE CHIEF, DEMANDING MONEY.

Gerald G. Swain, Jr., an employee of shipbuilding yards at the harbor, was bound over yesterday to await the action of the federal grand jury, in a bond of \$1000 on the charge of using the mails to scheme to defraud and blackmail, by United States Commissioner Hazen.

The hearing is set for tomorrow.

It is the allegation of the complaint, which is signed by Postoffice Inspector Cook, that Swain wrote a letter to Thomas A. Sanson, an attorney with offices in the Merchants' National Bank Building, threatening that he would expose the contents of a letter written to Swain's wife when she was employed as a stenographer in a local law office, with which Sanson at the time was connected, unless Sanson paid him \$500.

The letter stated that Swain, Mr. Cook declared, that the money must be sent by registered mail not later than Saturday, March 23, "for our interest in the case." The Swains were married in Indianapolis, Ind., last September, and they have been in Los Angeles since November, 1917.

Inspector Cook says that Mrs. Swain is known as Miss Florence E. Craven, and that she lives at the Windsor apartment, No. 870 Orange street, while Swain lives in an apartment-house on West Sixth street.

When Swain was taken before United States Commissioner Hamack he said his wife had been continually annoyed by Sanson, and that on many occasions she had been compelled to forego her lunch in order to avoid his unpleasant attentions.

Tals aroused Commissioner Hamack, and he said: "If anything like that should happen in my family, I should forget how old I was and see what could be done in the matter, but I would not use the mails."

SCREEN FACE NOT SPOILT, SAYS COURT.

When the fact seemed to be that William G. Young, known on the screen as Billy Armstrong, was responsible for the automobile accident that had caused Tom Hagio to sue him for \$115,750 damages, Judge Taft yesterday denied Mr. Young's counter-claim that his screen face had been damaged, for which he demanded \$15,000, and gave judgment in favor of Mr. Hagio for \$550.

Mr. Young declared that because

BLOCK WAY TO NEW ESCAPE?

Officers Say Ben Livingston was All but Gone.

Telltale Package Seized as He is Arrested.

Contained Large Sum and a Proxy Appointment.

On a second charge preferred by Federal officials, Ben Livingston was arrested yesterday by United States Commissioner Hammack to put up an additional bond of \$3500. As his sister, Miss Clara Livingston, has about \$24,000 in cash on deposit in two city banks, there was no trouble in inducing a local surety company to go on his bond.

This makes a total of \$10,000 put up by the Livingston family for the appearance of Ben Livingston and his sister, Miss Clara and Elsie, on the charge of secreting their parents, Nathan M. and Matilda Livingston, and brother Robert A. Livingston, and for Ben to answer the new charge of conspiring with his parents and his brother, Robert A. Livingston, to present false claims for exemption in behalf of the latter before exemption board No. 13, August 2, last.

Nathan M. and Matilda Livingston, and their son, Robert A. Livingston, are still in hiding somewhere, and the understanding in local Federal circles is that they are below the line in Mexican territory.

The additional charge against Ben Livingston came as a surprise. When he was arraigned before United States Commissioner Hammack, Assistant United States District Attorney Lawson stated the information that the alleged false affidavit that was signed by the parents had really been filed by Ben Livingston, had only become known to the authorities last Tuesday evening.

TELLTALE AGREEMENT. Deputy United States Marshal Bassett arrested Livingston on Broadway, in company with his sister, Miss Elsie and Clara. It was stated in court yesterday that when Ben was taken into custody he tried to pass to his sister, Clara, a package of \$1500 in bills and an agreement signed by Ben Livingston and Irving Turner, who is a broker at No. 315 South Los Angeles street, authorizing Turner to take care of his business while he was out of the city.

Miss Clara Livingston said the money was hers, and that she had given it out of her bank to pay some small bills, etc.; but Ben admitted in court that he had tried to shift the money and the agreement to his sister.

The agreement, a copy of which was produced in court, was an authorization for Turner to remove all of the household goods belonging to the parents at No. 950 Westchester place to Ben's home, No. 416 West Colorado street, Pasadena, and the most explicit directions were given Turner as to what he

SAWTELLE IN FLANK ATTACK.

Socks Registration Records So it may Hold an Election Soon.

Executing a flank attack, a petition was filed in the District Court of Appeal yesterday by the City Clerk of Sawtelle to compel D. B. Lyons, Registrar of Voters, to turn over to Sawtelle the precinct registration of that recently-annexed city, which must be used in the election to be held in that place on April 8. The writ is returnable April 2.

The contention arises from the chaotic state of affairs in Sawtelle growing out of the recent vote of that city to annex to Los Angeles. The District Court, in an opinion handed down some time ago, held that a majority of the votes in Sawtelle had been cast in favor of annexation. The Sawtelle authorities, however, refuse to be "annexed."

Should do to settle up the business affairs of Ben Livingston, indicating in the opinion of Commissioner Hammack, that Ben intended to leave these parts permanently.

Livingston explained that he gave Turner the agreement because he was so nervous that he could not attend to his own business; that he needed a complete rest from the vexation of his present trouble, but that he had no idea of trying to get out of the country.

SHE WOULD TALK.

Miss Clara insisted upon telling Ben what he ought to say, and it was necessary for Deputy Marshal Bassett to compel her to keep quiet. This young lady was the ardent champion of her brother. He has a poor heart, his kidneys are weak, his liver is out of order, his nerves are all shot to pieces, he can't stand still five minutes at a time; in fact the only good thing about my brother is his eyes—and you know a man don't amount to much if he only has good eyes in his business," said Miss Clara, the tears streaming down her face.

Assistant United States District Attorney Lawson insisted on a bond of \$5000 for Ben on the second charge, but Commissioner Hammack fixed it at half that amount. It is claimed by the government that Ben Livingston, until a few days ago, had to his credit in two Los Angeles banks, \$20,000 in cash; that \$24,000 of this amount has since been turned over to his sister, Miss Clara. This does not include what was secured from the sale of the two Philadelphia shoe houses on South Broadway, and on Colorado street, Pasadena, for it is understood that real estate was traded for these stocks, and that the title for this property is now in the name of Miss Clara Livingston.

FIRST BELGIAN SOLDIER HERE

Sharpshooter Says Germans' Drive will Fizzle.

Thinks Shortage of Food will Defeat Germany.

Local Colony Plans Banquet in His Honor.

Antoine Bachin, the first Belgian soldier to reach this country on foot, since the world war began, arrived last night from Echiminas to register with Charles Wisel, the Belgian Vice-Consul here. Mr. Bachin is a private in a machine gun company and ranks as a sharpshooter. He is an American citizen, having left his home in St. Joseph, Mo., early in 1914 to volunteer in the Belgian army. He has been fighting in France since then. He started for this country thirty days ago and will be here on leave forty-three days.

It is the opinion of this soldier, who has the advantage of being able to take both the Belgian and the American view of things in the war zone, that shortage of food is going to bring Germany to her knees after a terrific and perhaps long drawn-out struggle. He thinks that the savage spring offensive was launched in the hope of bringing about some sudden change in the situation, which would either bring the war to an end or enable the Germans to seize large quantities of supplies to tide them over for a while.

"Three or four months ago when we were taking German youths from 15 to 18 years of age as prisoners the first question they would ask us was," he says, "Have you got anything to eat?"

"The poor devils were half-starved," he says, "and went through their knapsacks all we could find was a sort of black bread, which was so hard that you could hardly break it without using a hammer. Since I have been in the fight I have seen different kinds of German soldier bread, and none of it seems to contain wheat."

Private Bachin says the soldiers of the Allied armies are now well fed. He declares that during the first few months of the war he and his comrades went from two to four days at a stretch with little or no food, and that they did not eat regularly until the Belgian relief work began. Now he says that all the Allied soldiers are fed well.

The hearty co-operation of the American people is greatly appreciated by France and Belgium, Mr. Bachin says. The United States comes in for a great deal of praise from the soldiers, but he says that the idea of rebuilding France is not a popular one there.

"Don't tie up millions in funds to rebuild anything until the war is over," is the way he puts it. "Keep your money free and loose and put every dollar of it on the Allies. Back your own men and ours to win. We may need every available dollar before the fight is over. And build boats! More boats! We are not hungry now, but we may be if the boat-building programme isn't carried on successfully. If you people over here will fight the battle at home as hard as the Allies are fighting it over there, we will win with a whoop, but guns alone won't do it. Everybody must do his part."

Private Bachin doubts that the Germans will get much farther with their big drive. He says the British must fall back from fifteen to twenty-five miles while the French are getting firmly established in trenches, but that the drive will soon fizzle out.

Mr. Bachin came West to visit his uncle, Peter Lux, at Encinitas. On April 1, the local Belgian colony will give a banquet in his honor.

MASONS TO OBSERVE SOLEMN CEREMONIAL.

MEMBERS OF SCOTTISH RITE WILL CELEBRATE MAUNDY-THURSDAY TONIGHT.

Tonight at 8 o'clock at the Scottish Rite Cathedral all members of Rite bodies sojourning in this vicinity who have received the Eighteenth Degree will attend the obligatory ceremony of Maundy-Thursday.

The Maundy-Thursday ceremony is the most impressive and solemn occasion in Masonry. The ceremonies are mandatory. Every member of the degree of Knight Rose Croix is expected to be present to participate. Sickness or unavoidable causes only is a valid excuse.

The following is the programme for the evening: Address by Very Rev. Dean William MacDonnell, 33° Hon., on "Assurance of Immortality." The special music will be furnished entirely by the Scottish Rite Orchestra and Male Choir, and will be as follows:

BAUMAN'S IDENTITY SEEMS UNCERTAIN.

(BY A. P. MORT WIRE.) SAN FRANCISCO, March 27.—Search of the United States records here today failed to disclose any mention of "Capt. Fritz Bauman," reported to be implicated in a German raiding expedition which was halted by the capture of the raider Alexander Agassiz. According to Chief Deputy United States Marshal George Burnham, the only Bauman appearing in the Federal records is Frank Bauman, who was arrested February 25, last, on a Presidential warrant and is interned at a government detention camp.

Antoine Bachin.

Plans Laid Bare.

(Continued from First Page.)

German sailing ships interned at Santa Rosalia. "About a month before the Agassiz put to sea, Bauman was sent to Mexico City for a conference with the German Ambassador. Germans from all parts of Mexico attended this meeting. Upon Bauman's return to Mazatlan, he sought the acquaintance of Miss Lechman and in some manner induced her to let him have the Agassiz."

"The Agassiz then was hailed out on the beach and thoroughly overhauled by a number of German sailors that had arrived from the fleet of German ships at Santa Rosalia."

NEWS REACHES FLEET.

"As the outfitting of the raider was carried on boldly in plain sight, the news reached the American patrol fleet. One morning an American cruiser put in an appearance off the mouth of Mazatlan Harbor. This evidently frightened the conspirators, for, as we afterward learned, they switched their plans. Instead of boldly sailing out of the harbor with a crew of twenty or more Germans, only five Germans, two American women and six Mexicans were put aboard."

"Bauman, the ringleader, accompanied by the remaining Germans, then went to Venados Island to await the Agassiz. Bauman eventually figured that the Agassiz would be taken as a harmless trader and allowed to proceed. He guessed wrong."

"We signalled to the Germans to leave to. They refused. We then planted a shell directly in front of the raider's bow."

"The raider stopped immediately. While the cruiser was bearing down on the Agassiz the crew aboard the schooner labored like trojans throwing overboard everything that they thought would be incriminating. They continued this for forty-five minutes. The crew also made an attempt to wreck the engines by destroying the bearings and the magnets."

FIND SECRET CIPHER. "We found a small quantity of munitions, rifles, revolvers, German flags and a secret cipher, the importance of the latter of which is yet to be disclosed."

It appears that the capture of the raider was effected in a most spectacular manner. The naval authorities taking measures to take the ship's company before they could escape to neighboring islands or to the mainland and set up a claim of innocence. Three warships from three different directions bore down upon the Agassiz and shut off every avenue of escape. When boarded, the ship's safety was found to be the disposition of the presence of one German who had concealed himself in the double bottom and was provided with explosives.

Additional information, gained in the capture of the raider, is that the Germans are outfitting a dozen similar craft at various Mexican ports with the idea that at least one of the lot will make a capture and establish a privateer on the Pacific.

PRIZE COURT WILL SIT ON CASE TODAY.

(BY DIRECT WIRE—RECEIVED DISPATCH.) A PACIFIC PORT, March 27.—The first prize court held on the Pacific coast since the outbreak of the war will convene here tomorrow on a United States warship to determine the status of the Alexander Agassiz and the disposition of the prisoners. Members of the court were appointed by Federal Judge Bledsoe of Los Angeles.
